

# Light Up Lock Up

Homes in darkness  
from 4-9 pm can be  
a target for thieves

Your house has just been identified as  
being vulnerable and a target for potential  
burglars because . . .

- No lights were on, curtains open (for all to see inside)
- Mail not removed from letter box
- Valuable items on display

## Prevent this with simple measures:

A well lit home gives the impression that someone is in.

- Use timer switches to turn lights on while you are out  
(20 watt energy efficient light bulb costs less than 2p per day if left on for four hours)
- Don't leave curtains closed during the day, only in evening/night time
- Lock all windows and doors
- Keep gates well secured
- Keep valuable items out of view.
